

LicLLab

light is culture

Lighting is a fundamental element of modern life, significantly influencing how we experience and perceive our surroundings. At LICLLAB, we recognize the transformative power of light in shaping everyday moments and environments.

Key Projects Update

August 2025

The company

LicLLab

With over 18 years of experience, LICLLAB (**Light Is Culture Lighting Laboratory**) approaches lighting as a form of **cultural expression**. We specialize in the design and manufacturing of **architectural lighting**, delivering tailored solutions that combine aesthetics, performance, and cutting-edge technology. In close collaboration with lighting designers, architects, and consultants, we craft **bespoke** fixtures to meet each client's vision.

Aesthetic & Functionality

We create lighting solutions that **merge function** with **artistic** and **cultural expression**. Our designers and engineers work together to develop innovative, visually striking products that enhance and elevate every space, reflecting the latest trends and timeless design.

Colours

We infuse culture into our lighting through thoughtful color selection. By choosing specific LED BINs, we evoke **emotions** and shape **atmosphere**—warm tones create intimacy and comfort, while cooler hues inspire calm. Each design transforms space into a meaningful **experience**.

Sustainability

Our commitment goes beyond design and aesthetics, we are deeply dedicated to **sustainability** and **environmental responsibility**. Recognizing that light is a valuable resource, we focus on creating **energy-efficient**, **long-lasting** lighting solutions.

Guaranteed

We believe that real solutions require more than just speed, they need to be **reliable** and thoroughly **tested**. Every product we offer is rigorously evaluated to ensure top performance and **quality**. Our commitment is to deliver solutions that are **guaranteed** to work, **100%** of the time.

Vision

We envision **LicLLab as the go-to laboratory** for architects, consultants, and the lighting design community to create the products they truly desire. We aim to be more than just a lighting manufacturer, we strive to be the **premier innovation hub**, where creativity and technology come together to **shape the future of lighting design**.

International business

At LICLLAB, our commitment to **quality** and **craftsmanship** is deeply rooted in the renowned 'Made in Italy' tradition. Italian design and manufacturing excellence shape every product we create, ensuring a perfect blend of **artistry** and **innovation**. While our roots are **proudly Italian**, our **impact** is **global**. We have established strong partnerships with **international** clients and collaborators, allowing us to bring our lighting solutions to homes, businesses, and public spaces around the world. Our global network ensures that LICLLAB continues to illuminate environments with both **Italian flair** and **international vision**.

Sheikh Zayed Grand Mosque Centre

Abu Dhabi, United Arab Emirates

Located in the cultural heart of Abu Dhabi, the Sheikh Zayed Grand Mosque Centre is an iconic destination celebrating **spirituality, heritage, and intercultural dialogue**. LicLLab was proud to contribute to a new **exhibition space** dedicated to sacredness and worship.

Focus

The aim was to honor both the sanctity and visual grandeur of the space, crafting an immersive and reverent atmosphere where light becomes a key element in architectural storytelling.

Tailored

The realized lighting features an exceptionally warm 2000K color temperature—carefully chosen to evoke the traditional glow of **candlelight**, while gently guiding the visitor's gaze through the space with elegance and intention.

Involved Technology

Custom Flexible
Limitless NEON 2000K

The lighting solution follows curved and irregular paths with ease—creating a seamless blend of design, function, and ambiance.

Private Apartment

Dubai, United Arab Emirates

This private apartment in Dubai features a refined lighting scheme designed to enhance both the architecture and atmosphere of the space. Warm color temperatures and subtle layering create a welcoming and elegant environment, perfectly suited to **contemporary urban living**.

Focus

This residential lighting project embodies elegance, warmth, and refined minimalism. Each space is carefully illuminated to **enhance architectural lines**, natural textures, and the flow of daylight.

Tailored

Every detail reflects a **balanced dialogue** between form and function, where light becomes an essential part of the architecture—elevating the living experience with simplicity, elegance, and intention.

Involved Technology

Led Strips and Downlight
 $\text{CRI} > 90 - \text{SDCM} \leq 3$

Offering a seamless integration of light that emphasizes clean lines and modern finishes.

Jordan Gate Towers

Amman, Jordan

Our team was honored to transform the four façades of the iconic Jordan Gate Towers. The result is a breathtaking **fusion of light and architecture**, enhancing the towers' majesty with a **dynamic**, vibrant display that captivates all who experience it.

Focus

This project exemplifies how cutting-edge lighting technology can elevate architectural landmarks, creating an **unforgettable visual experience** for all.

Tailored

Designed specifically to meet the unique scale and design of the Jordan Gate Towers. Four-sided lighting coverage ensures a cohesive and immersive visual impact from every angle.

Involved Technology

Customized Pixel LED
Linear Profile RGBW

Precision-engineered to highlight the architectural contours of each façade, delivering rich, dynamic color transitions.

ME DO RE Tower

Dubai, United Arab Emirates

The ME DO RE Residential Tower represents the pinnacle of **luxury** in Dubai, redefining urban living with its bold design and refined **elegance**. LICLLAB is honored to have collaborated closely with the client and stakeholders, forging a dynamic partnership that brought a shared vision of **sophistication** to life

Focus

LICLLAB's commitment to **excellence** shines through in every corner, ensuring that ME DO RE Residential Tower is not only a testament to luxury but a truly exceptional **living experience**.

Tailored

Through careful **planning, customization**, and attention to every **detail**, LICLLAB delivered an exclusive range of lighting solutions tailored specifically for ME DO RE.

Involved Technology

Led Strips and limitless NEON
 $CRI > 92 - SDCM \leq 3$

Each element exemplifies **precision, quality, and artistry**, culminating in a collection that enhances the tower's opulent ambiance and sets a **new standard** for luxurious interiors.

Marsa Al Arab

Dubai, United Arab Emirates

Marsa Al Arab, an extraordinary development off the coast of Dubai, epitomizes opulence and innovation, seamlessly merging luxury living with breathtaking architectural design. This multifaceted project brings together a vibrant community of residential, hotel, and leisure elements, creating a truly unparalleled **lifestyle experience**.

Focus

Experience the fusion of **luxury** and **artistry** at Marsa Al Arab, where every **detail** is thoughtfully curated to create a **captivating** living environment.

Tailored

LICLLAB's meticulously designed lighting installations enhance the grandeur of the lavish **penthouses**, casting a warm, inviting glow that accentuates the **sophisticated** interiors.

Involved Technology

Led Strips and limitless **NEON**
 $CRI > 92 - SDCM \leq 3$

Distinguished Italian lighting **manufacture** and exquisite **craftsmanship**. Each light fixture reflects the essence of **Italy**, elevating Marsa Al Arab into a luminous oasis of **elegance** and **style**.

The Edge Social Lounge Kempinski Hotel

Ishtar, Jordan Dead Sea

Set against the breathtaking backdrop of the Dead Sea, the Kempinski Hotel Ishtar Dead Sea offers a **luxurious** escape defined by **elegance** and **serenity**. One of its crown jewels, The Edge Social Lounge, has recently undergone a lighting transformation that enhances its ambiance, creating an unforgettable **experience** for guests.

Focus

This **harmonious** fusion of innovation and tradition transforms The Edge Social Lounge into a space that feels both **intimate** and **grand**, elevating the guest experience and adding a layer of elegance that resonates with the natural **beauty** of its surroundings.

Tailored

The design features custom LED fixtures with warm, inviting tones that accentuate the lounge's **sophisticated** decor and highlight architectural details, while also minimizing glare to maintain a **soft, ambient glow**.

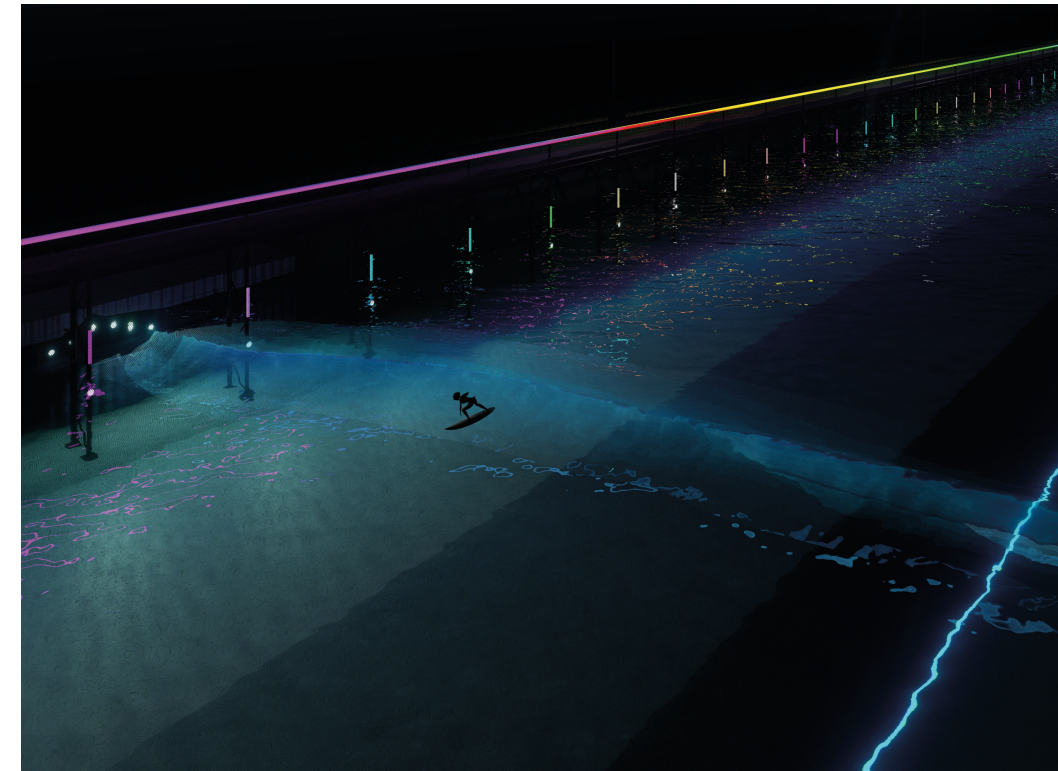

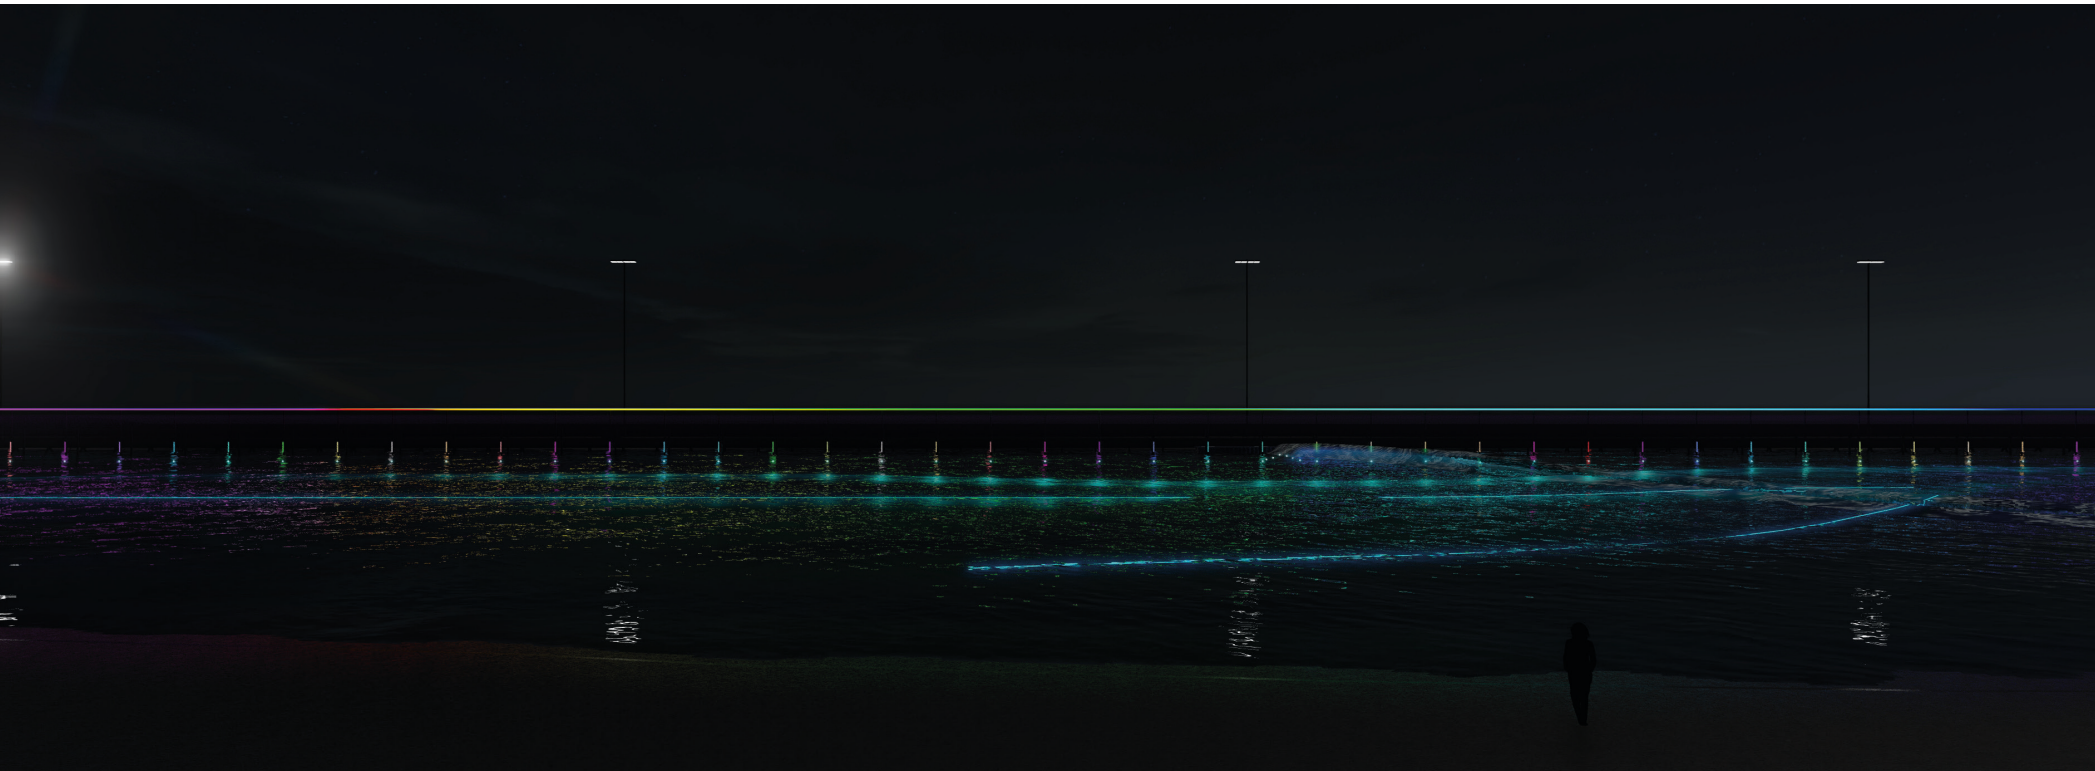

Involved Technology

Led Strips and Downlight
CRI > 90 - SDCM ≤ 3

The fixtures are thoughtfully integrated into the space, **blending seamlessly** with the lounge's **modern yet timeless** aesthetic.

Hudayriyat Surf Ranch

Abu Dhabi, United Arab Emirates

Located in the heart of Abu Dhabi, the Hudayriyat Surf Ranch, known as Surf Abu Dhabi, sets a new global benchmark as the **World's Most Advanced Artificial Wave Facility**. Officially opened in 2024, this groundbreaking destination redefines the future of surfing with state-of-the-art wave technology designed to deliver the perfect ride—every time.

Focus

We were selected to design a fully custom lighting solution that matches the innovation of the venue. Not only enhancing visibility but transforms the entire wavescape into an **immersive, kinetic light experience**.

Tailored

Specially developed to endure the harsh marine conditions of the surf environment, including constant humidity, salinity, and mechanical stress.

Involved Technology

Custom AISI 316L Linear Profile RGBW Pixel

The system allows full **dynamic control** of each segment of light, enabling choreographed lighting sequences synchronized with wave patterns, music, or events.

And much more
